

## DATA SHEET

# ACCESSORIES FOR PORTABLES CLASS 50 / 60 / 110 / 210 / 310

## Transport cases, carrying cases and protective shells

References	Description	Illustration
CQ 15	Protective shell with integrated magnets For class 50, 60 and 110 devices	
ST 50	Carrying case For class 50 devices (supplied in standard)	
ST 110	Carrying case with handle For class 60 and 110 devices (supplied in standard)	
MT 51	ABS transport case For class 50 and 110 devices	
MTP-210	Soft transport case For class 210, 310 devices and accessories	
MTP-310	ABS transport case For class 210, 310 devices and accessories	
SAD	Transport backpack For class 210, 310 devices and accessories	

## Extensions

References	Description	Illustration
RD 300	Straight extension, 10 mm diameter, 300 mm length For Ø14 mm hotwire and vane probes	
RC 90	90° bent extension, 10 mm diameter, 250 mm x 50 mm length For Ø14 mm hotwire and vane probes	
RTE	Telescopic extension, Ø16 mm, 1 m length, ±90° adjustable For measuring probes with handle	
RTE-2	Telescopic extension, Ø16 mm, 2 m length, ±90° adjustable For radio measuring probes	
PRST	Adjustable rod from 100 to 300 mm Allows measurements to be performed at different points, while maintaining the equivalent distance from the air vent outlet. For telescopic probes and extensions	

## Software and printer

References	Description	Illustration
LPC-14	Software with USB wired interface for PC connection, supplied with wired interface For class 210 and 310 devices	
KIMP-23	Remote printer, IRDA infrared connection, printing on thermal paper with 10-year warranty For class 210 and 310 devices	
CQ-IMP	Magnetic protective cover For KIMP-23 remote printer	

## Cables and probes adapters

References	Description	Illustration
CSM	Coiled cable with mini-DIN male connector For class 210 and 310 Pt100 temperature and measuring probes	
TCP-110	Adapter for Pt100 temperature probes. Output on mini-DIN connector, fixed with non-removable stainless steel junction box. Factory-mounted on probe only. For Pt100 thermometers of class 110 devices.	
TCP-310	Adapter for 3-wire Pt100 temperature probes, 0.1 °C resolution. Output on mini-DIN connector, fixed with non-removable stainless steel junction box. Factory-mounted on probe only. For Pt100 temperature and measuring probes of class 210 and 310 devices.	
TCP-310-HP	Adapter for high-precision 4-wire Pt100 temperature probe, 0.01 °C resolution. Output on mini-DIN connector, fixed with non-removable stainless steel junction box. Factory-mounted on probe only. For Pt100 temperature and measurement probes of class 210 and 310 devices.	

## Accessories

References	Description	Illustration
BAT-23	Rechargeable lithium-ion battery For class 210 and 310 devices	
CAB-23	USB cable with mains adapter For BAT-23 rechargeable battery for class 210 and 310 devices	
BNF	Cleaning spray can For hotwire	
GST	Thermally conductive silicone grease in 200 g tube, temperature from -60 to +205 °C	
RTO	Reflective tape, 1 m length For optical tachometer probe	
RTR-3500	Telescopic tripod on wheels, 1.20 to 3.50 m length, 90° swiveling, supplied with carrying case. For radio measuring probes
